“Building Digital Roads to Repair Broken Processes”

Webinar – Cantor Fitzgerald
December 2021

Disclaimer

This presentation contains highly confidential information and is provided by Exela Technologies, Inc. (“Exela” and together with its subsidiaries, the “Company”) solely for informational purposes. You should not rely upon or use it to form the definitive basis for any decision or action whatsoever, with respect to any proposed transaction or otherwise. You and your affiliates and agents must hold this document and any oral information provided in connection with this document, as well as any information derived by you from the information contained herein, in strict confidence and may not communicate, reproduce or disclose it to any other person, or refer to it publicly, in whole or in part at any time except with our prior written consent. If you are not the intended recipient of this document, please delete and destroy all copies immediately.

The information contained in this presentation has been provided by the Company without any representation or warranty as to the accuracy or completeness of such information. Neither the Company nor any of its affiliates or agents, make any representation or warranty, express or implied, in relation to the accuracy or completeness of the information contained in this document or any oral information provided in connection herewith, or any data it generates and expressly disclaim any and all liability (whether direct or indirect, in contract, tort or otherwise) in relation to any of such information or any errors or omissions therein. Any views or terms contained herein are preliminary, and are based on financial, economic, market and other conditions prevailing as of the date of this document and are subject to change. We undertake no obligations or responsibility to update any of the information contained in this document. Past performance does not guarantee or predict future performance.

This presentation contains statements about future events and expectations, which are “forward-looking statements.” Any statement in this presentation that is not a statement of historical fact, including, but not limited to earnings guidance, estimates, forecasts, projections of financial results, expected future financial position, and business strategy, is a forward-looking statement. Such forward-looking statements and any other forward-looking statements made herein involve known and unknown risks, uncertainties and other factors, which may cause actual results of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. No representation or warranty, express or implied, is made as to the accuracy or completeness of such information. Such forward-looking statements are inherently uncertain, and actual results may differ from expectations and past performance. The Company assumes no responsibility to issue updates to any materials, including forward-looking statements, discussed in this presentation.

This presentation does not constitute an offer to sell or the solicitation of an offer to buy any security, nor does it constitute an offer or commitment to lend, syndicate or arrange a financing, underwrite or purchase or act as an agent or advisor or in any other capacity with respect to any transaction, or commit capital, or to participate in any trading strategies, and does not constitute legal, regulatory, accounting or tax advice to the recipient. This document does not constitute and should not be considered as any form of financial opinion or recommendation by us or any of our affiliates.

Recipients of this presentation should not construe the contents of this presentation as legal, tax, or financial advice. Each recipient should consult its professional advisors as to the legal, tax, financial or other matters set forth in this presentation and, by accepting this presentation, the recipient confirms that it is not relying upon the information contained herein to make any decision.

Non-GAAP Financial Measures and Related Information – This presentation includes constant Adjusted EBITDA, which is a financial measure that is not prepared in accordance with U.S. generally accepted accounting principles (“GAAP”). Exela believes that the presentation of the non-GAAP financial measure provides useful information to investors in assessing our financial performance, results of operations and liquidity and allows investors to better understand the trends in our business and to better understand and compare our results. Exela does not consider the non-GAAP measure in isolation or as an alternative to liquidity or financial measures determined in accordance with GAAP. For reconciliation of the comparable GAAP measures to the non-GAAP financial measures, see the Appendix attached to this presentation.

	Customer EDI Maintenance	Management Reporting		Assist Legal Team as required	RCA & Resolution on Unidentified Cash	Audit Assistance	

Exela EON – Robotic Process Automation as a Service

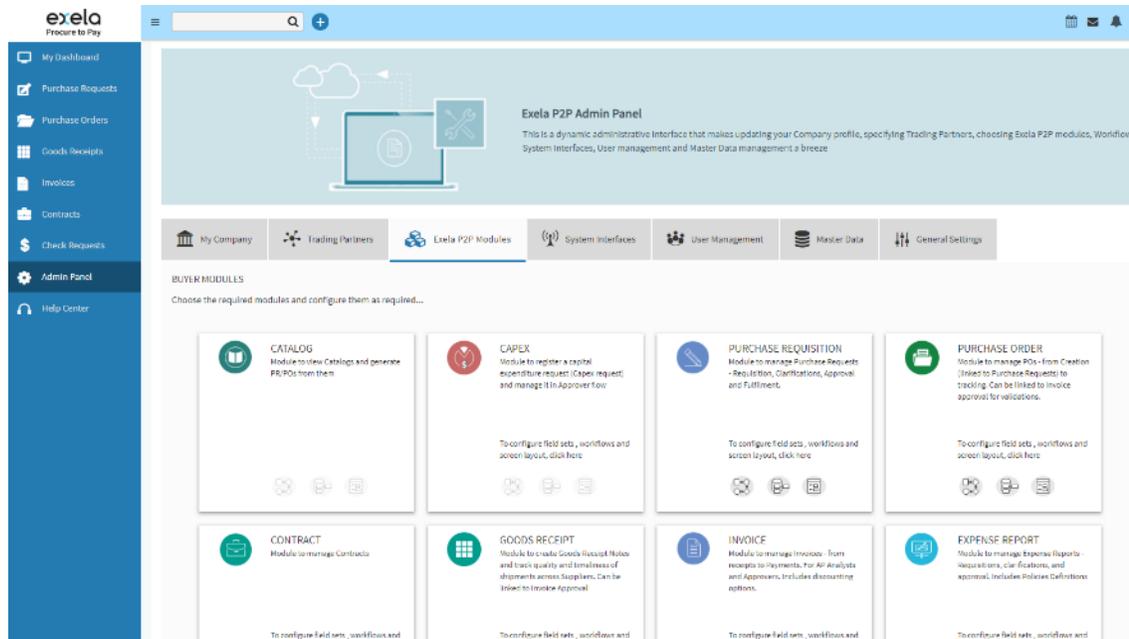

Exela Procure-to-Pay Solutions

Exela Procure-to-Pay (P2P)

Information management, automation, and payment portals that streamline operations

Interoperable Modular Solutions

Full Data Integration

Transactions & Exceptions

Procurement, Billing, and Payments

Integrated Communication Tools

Enhanced Visibility & Reporting

nQUBE: AI workflow builder

Delivering rapid implementation of AI and Deep Learning frameworks

AI development studio with robust model library

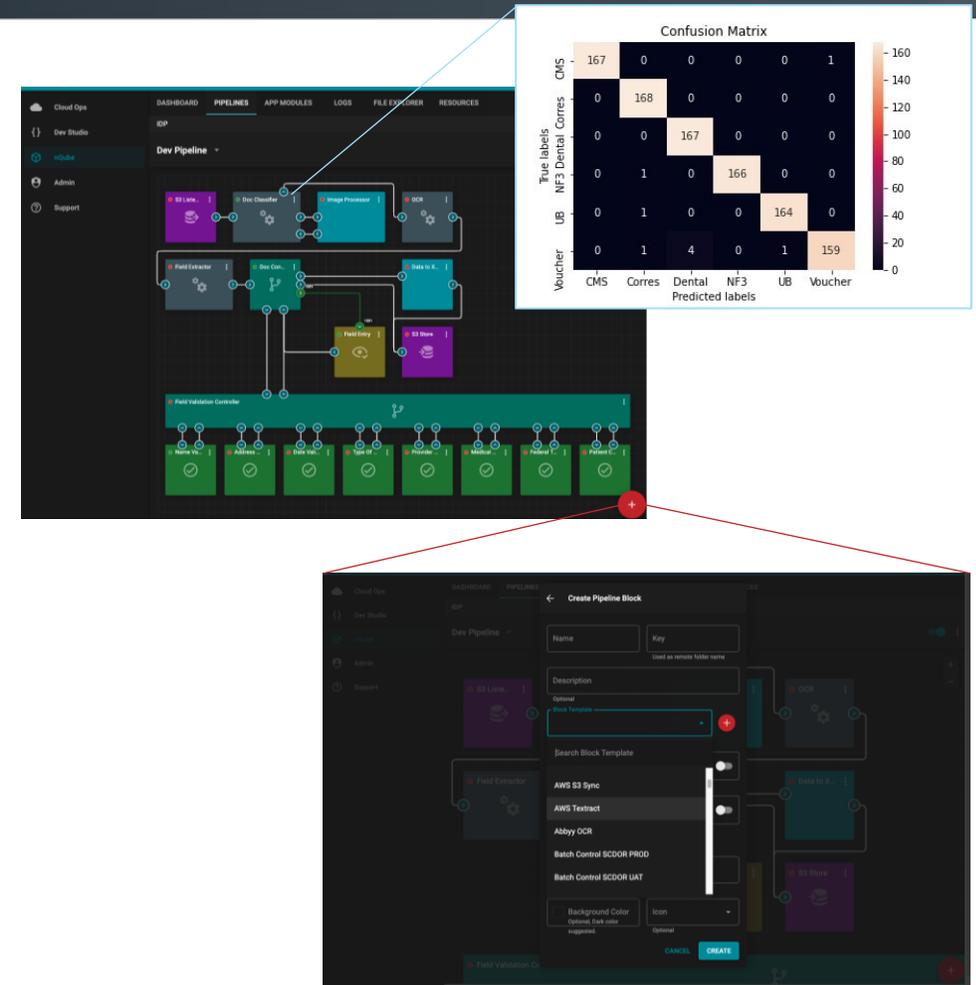

- Advanced AI support for all user types: from business analysts / non-programmers through expert data scientists
- Rapidly build, train, test and deploy neural networks along with other advanced machine learning models via the IDE
- Tools for Champion/Challenger model optimization

Interactive workflow creation and visualization

- Quickly connect reusable modules to assemble complex AI-powered workflows
- Pre-built connectors to standard data stores
 - AWS, GCP, Azure
- Pre-trained library of AI models and best-in-class ML services
 - Computer Vision, NLP, OCR, as well as Deep Learning-based classification models for object detection, form recognition, and forecasting
- Explore unique operational insights and extract critical feedback from production data pipelines

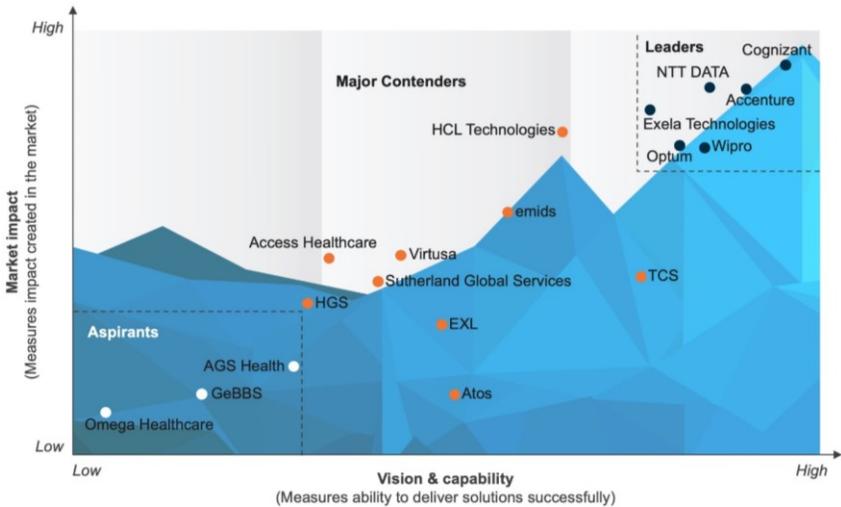

Scalable microservices

- Parallelize any model or microservice to meet the computational needs of any custom workflow

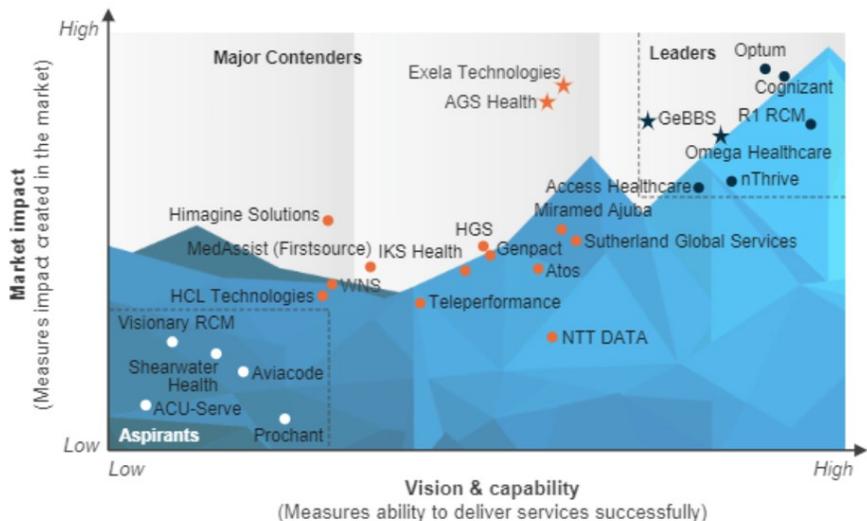

Industry Recognized Business Process Automation Platforms

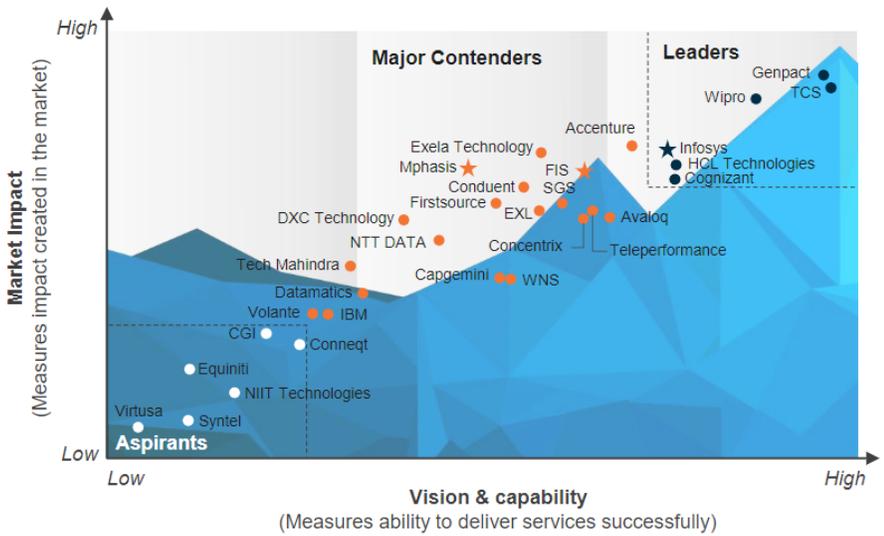

Intelligent Automation in Healthcare

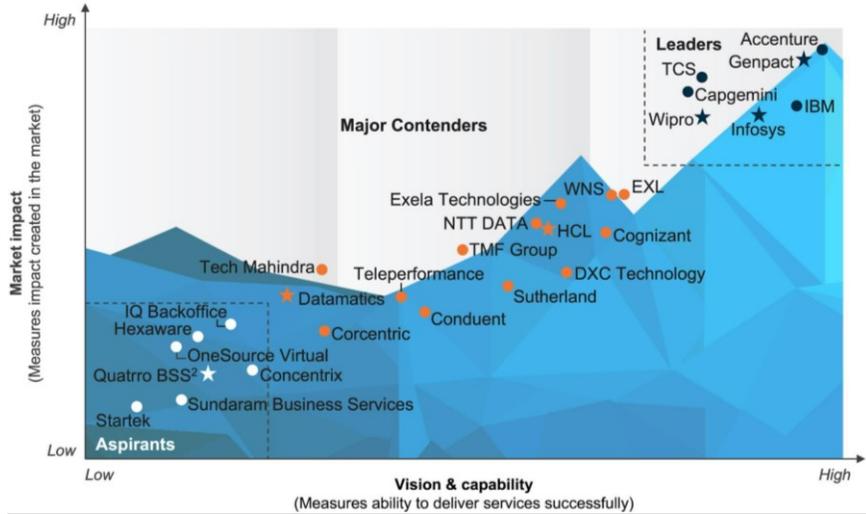

Revenue Cycle Management Operations

Banking BPS

Finance & Accounting Outsourcing

Exela Key Differentiators

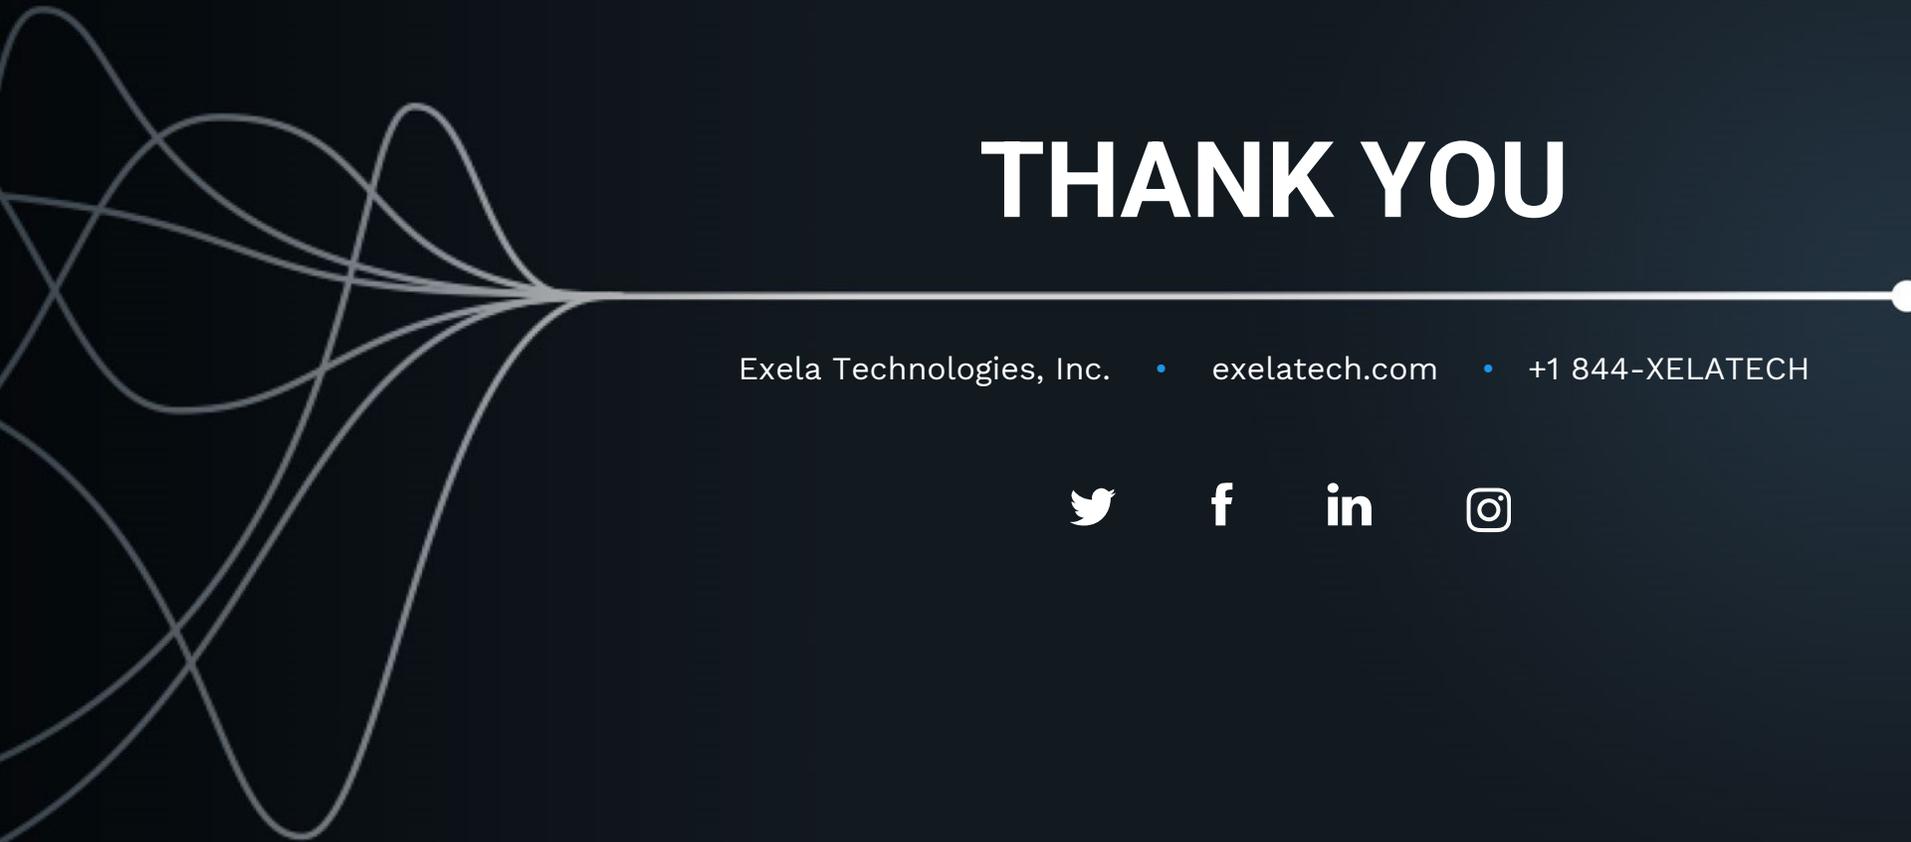

- ✓ **Decades of Customer & Industry Experience**
- ✓ **Bills & Payments Specialization**
- ✓ **Mission Critical Technology**
- ✓ **Automation IP Portfolio**
- ✓ **Modular 7-layer stack**
- ✓ **Ability to Handle Analog + Digital**
- ✓ **Hybrid Cloud and Onsite/Offsite Deployment Models**
- ✓ **Technology + Global Operations**
