

Exela Renews Long Standing Relationship with Leading Consulting Firm

January 25, 2022

- **Renewal includes Digital Mailroom for over 90,000 users**

IRVING, Texas, Jan. 25, 2022 (GLOBE NEWSWIRE) -- Exela Technologies, Inc. ("Exela") (NASDAQ: XELA) today announced a renewal of its services contract with a leading consulting firm. The renewal reaffirms a 20-year relationship. Exela is committed to continuing innovation and rapid response to the ever-changing work environment to enable our customers to operate without disruption. The total contract value is over \$35 million. Digital Mailroom ("DMR") and Exela's Intelligent lockers are a component of the broader suite of solutions provided to the customer.

During the initial stages of COVID-19, Exela rapidly deployed its proprietary DMR solution by redirecting all customer mail to one of its processing centers and allowing the customer's staff to receive their mail electronically from anywhere. The solution enabled a smoother remote working transition for a large number of the customer's global employee base and currently accounts for more than 90,000 users. Coupled with Exela's Intelligent Lockers, Exela is also providing a flexible way for the customer's agile workforce to receive and exchange packages, including IT laptop exchanges.

Exela's DMR is an end-to-end document management system that digitizes mail and other documents to create searchable, shareable digital assets that can be automatically routed to individual or group recipients, fully tracked, and accessible via a secure web-based portal anywhere at any time. The DMR platform also leverages Intelligent Document Processing to significantly improve efficiency and accelerate digital transformation.

"We are proud of our long-standing partnership and the expansion of our strategic DMR platform renewal," said Suresh Yannamani, President of Exela, adding "we continue to see growing demand for our DMR platform in the SMB and enterprise customer segments."
