Explanatory Note

This Amendment No. 1 to the Current Report on Form 8-K/A ("Amendment No. 1") of Exela Technologies, Inc. (the "Company") is being filed to amend the Company's Current Report on Form 8-K originally filed with the Securities and Exchange Commission (the "SEC") on May 10, 2018 (the "Original Report"). To correct a scrivener's error in the presentation of net loss per share in the press release contained in Exhibit 99.1 to the Original Report, the Company issued a "CORRECTING and REPLACING" press release on May 11, 2018. For the convenience of the reader, this Amendment No. 1 contains the correcting and replacing press release as Exhibit 99.1 and restates the remainder of the Original Report.

Item 2.02 Results of Operation and Financial Condition.

On May 11, 2018 the Company issued a corrected press release announcing its pro forma financial results for the quarter ended March 31, 2018. A copy of the press release is furnished herewith as Exhibit 99.1.

The information in this Current Report on Form 8-K/A (this "Report") furnished pursuant to Item 2.02, including Exhibit 99.1, shall not be deemed to be "filed" for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or otherwise subject to liability under that section, and they shall not be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended (the "Securities Act"), or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.

Item 7.01 Regulation FD Disclosure.

Attached as Exhibit 99.2 to this Report and incorporated into this Item 7.01 by reference is the investor presentation dated May 10, 2018 that will be used by the Company in making presentations to certain existing and potential stockholders of the Company.

The foregoing (including Exhibit 99.2) is being furnished pursuant to Item 7.01 and shall not be deemed to be filed for purposes of Section 18 of the Exchange Act, or otherwise be subject to the liabilities of that section, nor shall it be deemed to be incorporated by reference in any filing under the Securities Act or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.

CORRECTING and REPLACING Exela Technologies, Inc. Reports First Quarter 2018 Results; Pro forma Revenue growth of 8.7%; Net Loss of \$24 million; Pro forma Adjusted EBITDA Growth of 10.9%; Increases 2018 Revenue and Adjusted EBITDA Guidance

In Consolidated Statements of Income, “Net Loss Per Share” for the three months ended March 31, 2018 and the three months ended March 31, 2017 should read: (0.16) and (0.24), respectively, instead of (1.64) and (2.45), respectively.

The corrected release reads:

First Quarter 2018 Highlights:

- Revenue of \$393.2 million, representing pro forma year-over-year growth of 8.7%
- Net loss of \$24.0 million, a year-over-year improvement from a pro forma net loss of \$25.4 million
- Adjusted EBITDA of \$69.6 million, representing pro forma year-over-year growth of 10.9%
- Adjusted EBITDA margin of 17.7%, representing pro forma year-over-year improvement of 40 basis points
- Achieved \$14.8 million of savings during the first quarter of 2018 and reiterate anticipated savings of \$40 million to \$45 million during 2018
- Operating Income of \$14.7 million, flat on a year-over-year basis
- EBITDA of \$56.1 million, an increase of 30% year-over-year
- Previously announced share buyback program remains in effect and as of the date of this release, total shares purchased equal 186,205
- Increases 2018 revenue and adjusted EBITDA guidance

Irving, TX— May 11, 2018 — Exela Technologies, Inc. (“Exela” or the “Company”) (NASDAQ: XELA), one of the largest global providers of platforms for Business Process Automation (“BPA”), announced today its financial results for the first quarter ended March 31, 2018.

“We are beginning to see the benefits provided through the successful execution of our strategy. I am pleased to report our first quarter results, highlighted by pro forma revenue growth of 8.7% and pro forma adjusted EBITDA growth of 10.9%. Based on our strong first quarter results, we are increasing our outlook for both revenue and adjusted EBITDA,” said Ronald Cogburn, Chief Executive Officer.

Cogburn continued, “The mission to extend Exela’s global leadership position in business process automation continues. We have significant white space opportunity to harvest, and we are expanding our customer engagements. For example, we are opening Exela innovation centers in key Exela markets. At these centers, we showcase our full suite of solutions and collaborate with our customers to solve problems and launch new services. Early signs are positive, with over 24 pilot programs at work to share the breadth and depth of Exela solutions with our customers. We continue to invest in people and technology to further build upon increased customer awareness.”

Financial information contained in this press release is presented pro forma for the business combination of Quinpario Acquisition Corp. 2, SourceHOV Holdings, Inc. (“SourceHOV”) and Novitex Holdings, Inc. (“Novitex”), which closed on July 12, 2017. The primary pro forma adjustment is to include the results of Novitex for the period January 1, 2017 to July 12, 2017. For more information, please refer to the reconciliation of reported to pro forma financial results contained in the Schedules of this release.

First Quarter Ended March 31, 2018 Financial Highlights

(Note: all Q1 2017 numbers, unless otherwise stated, are presented on a pro forma basis.)

- **Revenue:** Revenue of \$393.1 million, an increase of 8.7% from \$361.9 million in the first quarter of 2017, and an increase of 1.8% from \$386.3 million in the fourth quarter of 2017. Please refer to the pro forma revenue reconciliation contained in this press release for the first quarter of 2017. ITPS revenue was \$311.9 million, an increase of 11.6% year-over-year, driven primarily by increased volumes and expansion of services within existing customers. HS revenue was in-line with expectations at \$58.6 million, a slight decrease of 0.8%. LLPS revenue was in-line with expectations at \$22.6 million, a decline of 3.4%.
- 6 customers over \$25 million in annual revenue and approximately 200 customers with more than \$1 million annual revenue.
- Revenue per full-time employee increased sequentially to \$69 thousand from \$66 thousand.
- Total contract value won as of March 31, 2018, on a trailing-twelve-month basis, totaled \$1.525 billion
- Renewal rate on strategic accounts greater than 95%.
- **Net Loss** for the first quarter of 2018 totaled \$24.0 million, an improvement when compared to a pro forma net loss of \$25.4 million in the first quarter of 2017.
- **Adjusted EBITDA:** Adjusted EBITDA was \$69.6 million, an increase of 10.9% when compared to pro forma Adjusted EBITDA of \$62.7 million in the first quarter of 2017. The increase in first quarter 2018 Adjusted EBITDA was primarily driven by revenue growth and the impact of the

Company's cost savings initiatives, partially offset by ramp-up costs associated with new ITPS client contracts, investments in the Company's revenue growth initiatives, and higher public company costs.

- **Adjusted EBITDA Margin:** Adjusted EBITDA margin was 17.7%, representing an improvement of 40 basis points when compared to an Adjusted EBITDA margin of 17.3% in the first quarter of 2017. The improvement in Adjusted EBITDA margin was primarily driven by revenue growth and the impact of the Company's cost savings initiatives, partially offset by ramp-up costs associated with new ITPS client contracts, investments in the Company's revenue growth initiatives, and higher public company costs.
- **Capital Expenditures:** 2.2% of Q1 2018 revenue compared to 3.1% in Q1 2017.
- **Share buyback:** As of the date of this release, total shares repurchased under the Company's share buyback program totaled 186,205. Company anticipates continuing to be opportunistic in purchasing of shares under the current buyback program; particularly given the Company's view that shares are undervalued at current levels.

Balance Sheet and Liquidity

- **Balance Sheet and Liquidity:** At March 31, 2018, Exela's total liquidity was \$117 million, measured as \$26.9 million of cash and cash equivalents, \$10.4 million of restricted cash with no legal restriction, and \$79.4 million of available revolving credit facility (\$100 million of revolving credit facility less \$20.6 million of letters of credit). Total net debt was \$1.368 billion (measured as total consolidated

2

debt of \$1.406 billion less cash balances not legally restricted of \$37.3 million). During the first quarter, the Company made a cumulative \$26.5 million investment in initiatives intended to drive growth including: business optimization expenses and working capital growth. Investments in the aforementioned growth initiatives resulted in a sequential decline in liquidity.

Outlook

2018

- Company increases 2018 guidance for revenue and adjusted EBITDA.
- Revenue range increased to \$1.55 billion to \$1.58 billion from \$1.51 billion to \$1.54 billion previously. Increased range drives pro forma growth of 6.5% to 8.5%, up from pro forma growth of 4% to 6% previously.
- Adjusted EBITDA range increased to \$295 million to \$310 million from \$290 million to \$310 million previously. Increased range drives pro forma year-over-year growth of 20% to 26%; and expansion of adjusted EBITDA margins in the range of 220 basis points to 320 basis points.
- Further Adjusted EBITDA guidance — in the range of \$330 million to \$355 million or a margin of 21% to 22%.
- Guidance includes delivering \$40 million to \$45 million in savings during 2018 with remaining to be achieved beyond 2018.

Long-term

- Revenue growth in the range of 3% to 4%
- Adjusted EBITDA margin guidance in the range of 22% to 23%
- Adjusted Free Cash Flow conversion in the range of 87% to 89%

Guidance is based on constant-currency.

Note on Outlook: The company has not forecasted net income/(loss) on a forward-looking basis due to the high variability and difficulty in predicting certain items that affect GAAP net income/(loss) including, income tax expense, stock-based compensation expense. Adjusted EBITDA should not be used to predict net income/(loss) as the difference between the two measures is variable.

The above outlook is based on first quarter 2018 results. Reconciliations are available in the attached tables.

About Non-GAAP Financial Measures: This earnings release presents certain non-GAAP financial measures including EBITDA, Adjusted EBITDA, Further Adjusted EBITDA, Further Adjusted Free Cash Flow, each of which is a financial measure that is not prepared in accordance with U.S. generally accepted accounting principles ("GAAP"). We believe that the presentation of these non-GAAP financial measures will provide useful information to investors in assessing our financial performance, results of operations and liquidity. We believe these non-GAAP measures allow investors to better understand the trends in our business and to better understand and compare our results. Our board of directors and management use EBITDA, Adjusted EBITDA, Further Adjusted EBITDA, and Further Adjusted Free Cash Flow to assess our financial performance, because it allows them to compare our operating performance on a consistent basis across periods by removing the effects of our capital structure (such as varying levels of debt and interest expense, as well as transaction costs resulting from the business combination and other such capital markets based activities. Adjusted EBITDA and Further Adjusted EBITDA also seek to remove the effects of integration and related costs to achieve the savings, any expected reduction in operating expenses due to the business combination, asset base (such as depreciation and amortization) and other similar non-routine items outside the control of our management team. The Company does not consider these non-GAAP measures in isolation or as an alternative to liquidity or financial measures determined in accordance with GAAP. A limitation of these non-GAAP financial measures is that they exclude significant expenses and income that are required by GAAP to be recorded in the Company's financial statements. In addition, they are subject to inherent limitations as they reflect the exercise of judgments by management about which expenses and income are excluded or included in determining these non-GAAP financial measures and therefore the basis of presentation for these measures may not be comparable to similarly-titled measures used by other companies. These non-GAAP financial measures are not required to be uniformly applied, are not audited and should not be considered in isolation or as substitutes for results prepared in accordance with GAAP. Net loss is the GAAP measure most directly comparable our non-GAAP measures. For reconciliation of the comparable GAAP measures to these non-GAAP financial measures, see the schedules to this release. Optimization & restructuring expenses and merger adjustments are primarily related to the implementation of strategic actions and initiatives related to the business combination completed on July 12, 2017. All of these costs are variable and dependent upon the nature of the actions being implemented and can vary significantly driven by business needs. Accordingly, due to that significant variability, we exclude these charges since we do not believe they truly reflect our past, current or future operating performance.

Forward-Looking Statements: Certain statements included in this press release are not historical facts but are forward-looking statements for purposes of the safe harbor provisions under The Private Securities Litigation Reform Act of 1995. Forward-looking statements generally are accompanied by words such as "may", "should", "would", "plan", "intend", "anticipate", "believe", "estimate", "predict", "potential", "seem", "seek", "continue", "future", "will", "expect", "outlook" or other similar words, phrases or expressions. These forward-looking statements include statements regarding our industry, future events, the estimated or anticipated future results and benefits of the recently consummated transaction between Exela Technologies, Inc., SourceHOV Holdings, Inc., and Novitex Holdings, Inc. (including the related transactions, the "Business Combination"), future opportunities for the combined company, and other statements that are not historical facts. These statements are based on the current expectations of Exela management and are not predictions of actual performance. These statements are based on the current expectations of Exela management and are not predictions of actual performance. These statements are

Forward Looking Statements

Certain statements included in this presentation are not historical facts but are forward-looking statements for purposes of the safe harbor provisions under The Private Securities Litigation Reform Act of 1995. Forward-looking statements generally are accompanied by words such as "may", "should", "would", "plan", "intend", "anticipate", "believe", "estimate", "predict", "potential", "seem", "seek", "continue", "future", "will", "expect", "outlook" or other similar words, phrases or expressions. These forward-looking statements include statements regarding our industry, future events, the estimated or anticipated future results and benefits of the recently consummated transaction between Exela Technologies, Inc., SourceHOV Holdings, Inc., and Novitex Holdings, Inc. (including the related transactions, the "Business Combination"), future opportunities for the combined company, and other statements that are not historical facts. These statements are based on the current expectations of Exela management and are not predictions of actual performance. These statements are subject to a number of risks and uncertainties regarding Exela's businesses, and actual results may differ materially. These risks and uncertainties include, but are not limited to, changes in the business environment in which Exela operates and general financial, economic, regulatory and political conditions affecting the industries in which Exela operates; changes in taxes, governmental laws, and regulations; competitive product and pricing activity; failure to realize the anticipated benefits of the Business Combination, including as a result of a delay or difficulty in integrating the businesses of SourceHOV and Novitex or the inability to realize the expected amount and timing of cost savings and operating synergies of the Business Combination; and those factors discussed under the heading "Risk Factors" in Exela's Annual Report on Form 10-K filed with the Securities and Exchange Commission ("SEC") on March 16, 2018. In addition, forward-looking statements provide Exela's expectations, plans or forecasts of future events and views as of the date of this communication. Exela anticipates that subsequent events and developments will cause Exela's assessments to change. These forward-looking statements should not be relied upon as representing Exela's assessments as of any date subsequent to the date of this presentation.

Pro Forma Financial Information

This presentation includes unaudited pro forma financial information for the three and twelve month periods ending December 31, 2016 and 2017, as if the Business Combination had been consummated on January 1, 2016, based on certain estimates and assumptions that Exela management deems to be reasonable. This pro forma financial information may be revised as additional information becomes available. Therefore, it is possible that the actual adjustments will differ from the pro forma adjustments and it is possible that the difference may be material. The unaudited pro forma condensed combined financial statements are not necessarily indicative of what the actual results of operations would have been had the Business Combination taken place on the date indicated, nor are they indicative of the future consolidated results of operations of Exela.

Non-GAAP Financial Measure and Related Information

This presentation includes EBITDA, Further Adjusted EBITDA, and Further Adjusted Free Cash Flow – each of which is a financial measure that is not prepared in accordance with U.S. generally accepted accounting principles ("GAAP"). Exela believes that these non-GAAP measures of financial results provide useful information to management and investors regarding certain financial and business trends relating to Exela's financial condition and results of operations. Exela does not consider these non-GAAP measures in isolation or as an alternative to liquidity or financial measures determined in accordance with GAAP. A limitation of these non-GAAP financial measures is that they exclude significant expenses and income that are required by GAAP to be recorded in Exela's financial statements. In addition, they are subject to inherent limitations as they reflect the exercise of judgments by management about which expenses and income are excluded or included in determining these non-GAAP financial measures and therefore the basis of presentation for these measures may not be comparable to similarly-titled measures used by other companies. These non-GAAP measures should not be considered in isolation of, or as an alternative to, GAAP financial measures. For reconciliation of the comparable GAAP measures to these non-GAAP financial measures, see the Appendix to this presentation. Optimization & restructuring expenses and merger adjustments are primarily related to the implementation of strategic actions and initiatives related to the business combination completed on July 12th 2017. All of these costs are variable and dependent upon the nature of the actions being implemented and can vary significantly driven by business needs. Accordingly, due to that significant variability, we exclude these charges since we do not believe they truly reflect our past, current or future operating performance.

Combined Financial Information

This presentation includes quarterly, unaudited historical financial information for each of the four calendar quarters of 2016 and the first three calendar quarters of 2017 for Novitex and SourceHOV on a combined basis. This combined quarterly unaudited historical financial information does not include Quinpario Acquisition Corp. 2 as it was a special purpose acquisition company. Interest (impacting Net loss), Debt and addbacks to EBITDA are based on credit agreements in place before the Business Combination. No adjustment has been made to restate or reflect Exela's new capital structure. This combined quarterly unaudited historical financial information is not necessarily indicative of what the actual results of operations would have been had the Business Combination taken place on January 1, 2016, nor are they indicative of the future consolidated financial condition, results of operations or cash flows of Exela.

REVENUE GREW 8.7% ON A PRO FORMA YEAR-OVER-YEAR BASIS, AND 1.8% SEQUENTIALLY.

A Revenue

- ITPS revenue grew 11.6% year-over-year was driven primarily by increased volumes and expansion of services within new and existing customers. Sequential growth in industry verticals was driven by strength in banking and financial services, commercial, tech and manufacturing.
- HS revenue in-line with expectations due to sequential decline in volumes and typical seasonality.
- LLPS revenue is event driven and was in-line with expectations and reflects the sale of non-core asset.

NET LOSS OF (\$24.0) MILLION COMPARED TO A NET LOSS OF (\$58.7) MILLION ON A SEQUENTIAL BASIS.

B Cost of Revenue – is impacted by ramp up of large contracts, offset by flow through of cost savings initiatives. On a sequential basis, the increase is primarily due to an annual increase in payroll taxes.

C SG&A – decreased by 14% due to flow through of cost savings initiatives, offset by continued investments in our growth strategy.

D D&A – increase is due to accelerated write off of legacy trade names ratably during the remainder of 2018.

16

Other items

Impact of new revenue standard:

Exela adopted Accounting Standards Codification 606 (ASC 606) Revenue from Contracts with Customers as required effective 1/1/2018.

- The adoption did not have a material impact on the Company's financial position, results of operations and cash flows as of or for the period ended March 31, 2018.
- Exela recognized a \$1.4 million cumulative effect of accounting change as an increase to our beginning accumulated deficit balance.

Impact of tax reform:

- Exela will generate taxable income as a result of:
 - Limitation on interest expense deductions.
 - Global Intangible Low-Taxed Income (GILTI) for foreign provisions indicate additional US taxable income will be generated from our foreign operations.
- Net operating loss (NOL) carryforwards will fully offset current year taxable income. Exela has \$334 Million in usable NOL's.

2018 Business outlook⁽¹⁾

Increasing 2018 revenue and adjusted EBITDA guidance

- Revenue range increased to \$1.55 billion to \$1.58 billion, an increase from \$1.51 billion to \$1.54 billion previously. Increased range drives pro forma 2018 growth of 6.5% to 8.5%, up from pro forma growth 4% to 6% previously.
- Adjusted EBITDA range increased to \$295 million to \$310 million from \$290 million to \$310 million previously. Increased range drives pro forma year-over-year growth of 20% to 26%; and expansion of adjusted EBITDA margins in the range of 220 basis points to 320 basis points.
- Further adjusted EBITDA – in the range of \$330 million to \$355 million or a 22% to 23% margin for 2018
- Guidance includes delivering \$40 million to \$45 million in savings during 2018 with remaining beyond 2018

Long-term financial objectives

- Revenue growth in the range of 3% to 4%
- Adjusted EBITDA margin in the range of 22% to 23%
- Adjusted Free Cash Flow conversion in the range of 87% to 89%

Note: Guidance is based on constant-currency.

(1) The company has not forecasted net income/(loss) on a forward-looking basis due to the high variability and difficulty in predicting certain items that affect GAAP net income/(loss) including, income tax expense, stock-based compensation expense. Adjusted EBITDA should not be used to predict net income/(loss) as the difference between the two measures is variable.
